Cleaning, Rubbish and Recycling

Cleaning policy

We ask that you leave your bell tent and pitch in a clean and tidy state upon your departure. It is a condition of your stay in a bell tent that you clean all cooking equipment and dishes used during your stay. All group must sort their individual boxes and separate items used collectively please. Thank you for your cooperation!

Rubbish and recycling policy

As we are an eco camp we encourage everyone who visits us to help us with recycling. We provide a rubbish bin at every pitch for general waste and have two green recycling bins at The Shed. These are clearly marked with one for glass and another for mixed dry recycling (paper, cardboard, cans and plastics - but not plastic bags). We have large communal bins at our campsite drop-off point in the car park. We appreciate it if guests take their rubbish bags to the communal bins at the end of their stay. If you choose to separate your rubbish and recycling at your own pitch then please take care to place it into the correct bin in the car park when you leave.
